New International Sterling Pyx

with self-adjusting paten, Patented

Safer, Easier to Use. Easier to Purify.
More Durable

This new Pyx opens and adjusts for ready use in one safe, easy motion. Just turn back the safety tab and use it as a handle . . . as you do, the cover automatically raises and stops in just the right position to serve as a paten.

Note These Special Features:

Safe — won't open until you raise the safety tab.

Smoothly polished gold-lined interior, has no small crevices and is easy to purify.

Heavy weight sterling used throughout and specially heavy stock used in the hinge for greater durability.

Domed bottom of host compartment offers easier access to remaining hosts.

Compact — only 1-13/16" in dia. and 1/2" in depth.

The safety tab is decorated with modern symbolism by a leading designer.

This new Pyx was designed and developed under the technical supervision of four priests.

Open view shows three principal parts:

The Host compartment

The cover which adjusts to serve as a paten, and

The safety tab which adjusts to serve as a handle.

See how safety tab serves as convenient handle. Cover adjusts to position toward the communicant to serve as a paten.

International Sterling Pyx

Traditional construction with conventional snap lock and easy thumb tab release. No springs to break. Heavy sterling bridge. Smooth gold lined interior easy to purify. Domed bottom offers ready access to hosts, Diameter, 1 3/4"; Depth 3/4". Capacity, 24 hosts. Gift boxed.
